Please note that the minimum initial investment for the Fund is \$10,000, and the minimum additional investment is \$1,000. We have assumed that the \$5,000 contribution is made at the end of the year and that the value of the investment is a constant. This example is therefore calculated using the \$50,000 balance only. Please note that this is just an example. In practice, actual investment balances will vary daily and the actual fees and costs charged are based on the value of the Fund, which also fluctuates daily.
